# Surgical Technology Program

**Clinical Case Requirements**

During the Surgical Technology Program, students will be required to participate in a clinical externship within a hospital setting.

- The total number of cases the student must complete is 120.
- Students are required to complete 30 cases in General Surgery. Twenty cases must be in the First Scrub Role. The remaining 10 cases may be in the Fist Scrub or Second Scrub role.
- Students are required to complete 90 cases in various surgical specialties. A minimum of 60 cases must be in the First Scrub Role and evenly distributed between a minimum of 4 surgical specialties (minimum of 10 cases per specialty). The remaining 20 cases can be in another specialty or spread across the previous surgical specialties.
- The remaining 30 cases may be performed in any surgical specialty in either First Scrub or Second Scrub role.
